From what I understand, there was some administrative confusion and a full pre-hearing conference is not necessary – but we can still do the technology test. Since I have a number of things scheduled for Monday – some of which are scheduled at 10:00 a.m. – would you and your witness be available to test Monday, March 8 at 3:00 p.m. or any time between 3:00 p.m. and the end of that day? The test should only take a few minutes.

David, I am good for the prehearing conference and would love to make sure the computers etc. work for the virtual hearing. Thanks

Parties:

I understand we have a prehearing conference scheduled for Monday, March 8th at 10:00 a.m. for Docket No. 2020-293-C.

If you would be so kind as to fill out the following survey - providing contact information, really, for use during the prehearing conference and/or the hearing on March 15th, I would appreciate it. It will only take a few minutes, and I would very much like to have it filled out by close of business on Thursday, March 4.

I have not formally conducted prehearing conferences in these types of cases, but I believe it can be accomplished either with the WebEx virtual media program, or just by telephone conference with all parties. I am open to either option.

If you would like to conduct a test for the technology to make sure it is working well for you, this is an opportunity to do so. Alternatively, if you feel you do not need a test for the WebEx technology, then I will respect your time in that regard. However, the option is available.

In summary, please 1) fill the survey linked above ASAP, 2) indicate how you would like to proceed with the scheduled prehearing conference, and 3) indicate if you would like a test run with the technology to make sure all is working properly. We don't have to do the test at the same time as the prehearing conference, but it is efficient to do so.

Regards,  
David Stark
